CHILD DEVELOPMENT, EARLY CHILDHOOD EDUCATION AND FAMILY LIFE--A Bibliography

The following list of books has been compiled as a study guide for parents and students who are interested in child development, early childhood education and family life. These books are all currently available in the D.V.C. Library. Volumes which are also in paperback are indicated by an asterisk (*) or listed separately at the end of each category, if they have a different publisher. Many of the paperbacks are available in the D.V.C. Book Center. A list of books currently on order is also included for the reader's future use.

While the Diablo Valley College collection is especially good in child psychology, multi-ethnic and multi-cultural studies and innovative education, there are many references which are available at other libraries or book sellers. Extensive listings of books on ethnic concerns and women's studies are available from the D.V.C. Library. The Family Life Department also maintains short current bibliographies on open education, sex education, nutrition and aging.

The assignment of individual books to categories has been purely arbitrary. The reader is advised to check in several subject areas. The categories are:

- Child Development
